# SARR Freights partners with FCI

**Exim News Service**

NEW DELHI, July 22

**S**ARR Freights has been awarded with the consignment by Food Corporation of India (FCI) for the transportation of raw

ISO 9001:2008 Certified

rice stocks from Vizag to Agartala in Tripura through multimodal transportation to meet PDS requirements. This challenging venture opens up an alternate route as opposed to the conventional Rail-Road transportation route that is frequently disrupted due to rough geographic terrain, road-blocks and various other variables.

SARR Freights will be providing the complete set of logistics solutions for this new route including sea, river and land transportation, in foreign and domestic territory. This, first of its kind, pilot project that SARR Freights has been entrusted with will be critical in determining the efficiency and effectiveness of this unconventional course, which is

expected to ensure significant time and money savings.

This endeavour will reduce the transit distance by almost 80 per cent, and

ensure smooth supply and distribution of food grains and other essential commodities to the North-Eastern region facing acute shortage.

Additionally, the success of this project will facilitate the development opportunities and industrial growth of the North-Eastern region. SARR Freights is working closely with the FCI and Bangladesh Government to ensure this project is completed successfully in an efficient manner.

SARR Freights' undertaking of this innovative and unprecedented project is not surprising, as the company frequently takes on difficult and unconventional domestic and international projects,

## ICD Durgapur starts Direct Export Service to Bangladesh for small and medium-scale exporters

**Exim News Service**

KOLKATA, July 22

**ICD** Durgapur, operated by Allied ICD Services Limited has started direct export services to Bangladesh with immediate effect. Ex-

porters from all over India now have the choice to book cargo up to ICD Durgapur and enjoy direct export service to Bangladesh, instead of bringing their cargo all the way to Kolkata. The cargo exported to Bangladesh via Kolkata incurs detention charges for 7-14 days at Benapole

(Bangladesh). However, the export service can be availed directly from ICD Durgapur without any detention charges. This direct and hassle-free service is provided at competitive rates.

The scope of work will include unloading facilities and

# Three low cost airports for Bihar

**Exim News Service**  
 NEW DELHI, July 22  
 Minister of State for Civil Aviation, Shri G.M. Siddesh-

wara informed the Rajya Sabha yesterday that the Government has proposed to set up three new low-cost

airports in Bihar at Muzafarpur, Raxaul and Gaya. While Gaya is an operational custom airport, Raxaul will be a non-operational airport.

The development of an individual airport depends upon many factors such as availability of land, availability of mandatory clearances,

environmental clearances, traffic projections, and provision of support services by the State Government. The support services include access road to the airport, water supply, power supply, services of State Police and State Fire Staff.

## SARR Freights partners with...

(Continued from page 3)

providing complete logistics solutions. The company has unparalleled expertise and

experience in difficult regions including states of J&K, Himachal Pradesh, Uttarakhand and the North-eastern states.

## ICD Durgapur starts Direct...

(Continued from page 3)

customs clearance at ICD Durgapur with direct export to Benapole (Bangladesh) by road at an all-inclusive rate. ICD Durgapur, the only operational dry port in West Bengal was inaugurated in 2006 and has a handling capacity of

5000 containers at a time. The port caters to entire logistics services like warehousing, in-house customs clearance, etc.

Mr. Sourish Samaddar, Manager (Logistics) at Allied ICD Services has said that the above services can be availed by Exporters all over India.
